

RAID Log + Action Tracker Bundle

A simple control bundle that gives teams one place to track risks, issues, decisions, owners, due dates, and follow-up commitments.

Clear plans. Stronger communication. Better execution.

Who this pack is for

Project leads, operators, account leads, delivery managers, small internal teams

What the buyer receives

- **raid-action-control-workbook.xlsx** — Editable workbook with RAID, actions, decisions, and a meeting-ready follow-up view.
- **raid-log.csv** — Simple tracker for risks, assumptions, issues, and dependencies.
- **action-tracker.csv** — Action register with owners, due dates, and status.
- **decision-log.csv** — Decision log with rationale and downstream follow-up.
- **weekly-follow-up-template.docx** — Weekly review template for moving open items toward action.

What this pack should help improve

- Give the team a visible source of truth for project control items.
- Make owner-based follow-up easier to review in weekly meetings.
- Reduce the number of decisions and actions buried in inboxes or meeting notes.

Recommended use order

- 1 Use the workbook as the master version for active work.
- 2 Share the CSV versions if the team wants lighter files for import or ad hoc updates.
- 3 Use the weekly follow-up template to run shorter, more accountable check-ins.

Need this customized? Clarpont can adapt these tools into a fuller operating model, website plan, executive readout, or project delivery system.
